

# Recommendations from 15<sup>th</sup> EUMETSAT User Forum in Africa

## Overall status

### Status per topic / recommendation

- #1 Transition to MTG and AMSAF
- #2 Satellite data for early warning and aviation
- #3 Satellite data for Blue Economy
- #4 Satellite data for Climate monitoring and services
- #5 Data access and Training

Full report sent to the UFA participants by email on 5th September

## 16-EUFA : 17 recommendations

Topic	Status of recommendations		
	Closed	On-going	Open
<b>#1 Transition to MTG and AMSAF</b>	#1, #2, #3, #4	#5	
<b>#2 Satellite data for early warning and aviation</b>	#6, #9	#7, #8	
<b>#3 Satellite data for Blue Economy</b>	#11, #12,	#10, #13	
<b>#4 Satellite data for Climate monitoring and services</b>	#14, #15		
<b>#5 Data access and Training</b>	#16, #17		

# Status per Topic and Recommendation

# Transition to MTG and AMSAF (*recommendations #1 to #5*)

www.eumetsat.int

- **Dar es Salaam Statement** presented at RAI-I RECO (III) at Addis Ababa in Feb 23. MTG-AMSAF part of the WMO RA-I Strategic Priorities for 2024 -27 (*Recommendation R#1*) / **Closed**.
- Launch of the procurement of the new PUMA and ClimSA stations (*R#2*) / **Closed: *More info during WGs and Session #1***
- For North-Africa, discussions and interactions are on-going with support of RAIDEG (*R#3*) / **Closed**.
- Training plan on MTG and new PUMA stations: (*R#4*) / **Closed : *WGs and Session #1***
- AMSAF concept part of the Africa- EU Space partnership programme, (*R#5*) / **On-going : *Sessions #2 on #3***

# Satellite data for early warning and aviation (#6 to #9)

www.eumetsat.int

- Inclusion of **Turbulence products** are discussed within RAIDEG **R#6 / Closed**.
  - Some Turbulence products available in NRT in the Cloud instance of NWC-SAF SW (**ADAGUC**).
- 1st **AMSAF** instance focus on Nowcasting, refer to Session #2 **R#7 / On-going**: *see Session #2*
- 2 out of the **4 African RARS stations** disseminated through the GTS. On-going efforts by RCCs to enhance their access to global NWP. **R#8 / On-going**.
- Disaster Situation Rooms **R#9 / Closed**:
  - Multi-hazard Early Warning for All Action Plan for Africa (2023-2027)
  - Outcomes of the workshop on EO Hydrology ,
  - Contribution Space in support to Early Warning System project, *see Session #2*

## **R#10** G&A and Meteorological community / **On-going**

- Further efforts are needed to strengthen linkages between GMES & Africa and AMCOMET

## **R#11** G&A and NMHS cooperation in Western and Northern Africa for Coastal & Marine service / **closed**

- Example: UoG engaged with Togo's meteorological department and the Prefecture Maritime, **Details during Session #5 on Thu**

## **R#12** Use of EO by River Basin Authority / **Closed**

- Webinar (Aug 23) & workshop (Mar 24) on EO4Hydrology

-> Interactions between African stakeholders and data producers (incl. H-SAF).

## **Session on EO4Hydrology on Thu**

## **R#13** G&A Marine in Southern Africa and Indian Ocean / **On-**

# Satellite data for Climate monitoring and services (**#14 and #15**) &

## Data access and Training (**#16 and #17**)

Training on Climate datasets (**R#14**) / **Closed** :

- ClimSA training at regional level undergoing: **WGs and during Session #1**
- EUMETSAT Training portal (regular EUMETSAT CM-SAF training)
- Dialogue with AMU

Satellite based climate data on Cloud (**R#15**) / **Closed** :

- ClimSA Station Web Client
- NWC-SAF on the Cloud,

Pytroll (**R#16**): Pytroll libraries included in PUMA-2025 stations, **Closed**

EUMETCast Terrestrial **R#17**: Some institutions successfully connected (through NRENs and AfricaConnect) / ClosedSession #1 on EUMETSAT Data access

Thank you!  
Questions are welcome.
